DETAILED ACTION

This application has been examined. The claims 1-16 are allowed.

Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance: The present invention is directed to an image signal repeater apparatus comprising a image signal composed of multiple frames and a synchronization signal corresponding to said image signal, and then outputs each signal. The combination of the closest prior art of Someya et al. (US 6,924,796) and Shu et al. (US 6,778,170) and Nishitani et al. (US 2001/0045947) showed a similar invention, however, they fail to teach a clock replacing section which replaces a clock signal which is based on a synchronization signal corresponding with an image signal output by said image signal receiving section, with an internally generated replacement clock signal, and recovers an input image signal using the replacement clock signal; and an image signal transmission section which converts the recovered image signal output from said clock replacing section, to a digital transmission signal, and outputs the converted signal as claims 1 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimnhung Nguyen whose telephone number is (571) 272-7698. The examiner can normally be reached on MON-FRI, FROM 8:30 AM-5:30 PM.

Application/Control Number: 10/720,549 Page 3

Art Unit: 2629

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Hjerpe can be reached on (571) 272-7691. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
